

## STEEL CRASH BARRIER- MEISER RAIL AG04

Meiser Rail AG04 is a steel safety barrier manufactured by Meiser Strassenausstattung. It has been tested in accordance with EN 1317-5:2007 and A2:2012 / AC:2012. It is used as a single-sided safety barrier in outer verges and central reservations and offers good performance combined with very low weight. The steel grade used is S355.

### System description

Meiser Rail AG04 is classified in containment level H1 and has a working width of W3, an ASI value of A, and a dynamic deflection of 0.9 m. The safety barrier has a width of 0.20 m, a height of 0.75 m, and an installation length of 56 m.

### Installation

Meiser Rail AG04 is installed with a post spacing of 1.33 m using post type C-125 mm.

### Bolts

In accordance with EN ISO 1461

M16x27, property class 4.6

M10x60, property class 4.6
